ArRiyadh, Riyadh, Saudi Arabia

Professional Summary

Dynamic and results-driven International Relations and Partnerships Specialist with over 8 years of progressive experience in managing strategic collaborations, coordinating multi-department projects, and representing institutions on global platforms. Skilled in stakeholder engagement, policy support, and data-driven decision-making. Proven ability to lead cross-border initiatives, streamline internal platforms, and contribute to institutional excellence through well-structured partnerships and international outreach. Adept at navigating complex political and diplomatic environments with professionalism and cultural sensitivity.

EDUCATION

University of Central Missouri (UCM) 2011-2015
BSBA Business Administration – Computer Information Systems

WORK EXPERIENCE

Confidential, Riyadh, Saudi Arabia

International Relations & Partnerships Specialist | 09/2025

Department of International Relations and Partnerships

Responsible for developing, managing, and enhancing strategic international partnerships to support the organization's global objectives. Acts as the primary liaison with foreign entities and stakeholders to initiate collaboration, negotiate agreements, and represent the organization in international forums and high-level delegations.

- Lead the full lifecycle of international partnerships, including identification, negotiation, and execution of Memoranda of Understanding (MoUs) and cooperation agreements.
- Represent the organization in official delegations, political forums, and high-level meetings with over 90 international counterparts.
- Coordinate cross-functional initiatives involving internal departments and external international stakeholders to align shared goals and ensure project success.
- Plan and support participation in international exhibitions, conferences, and bilateral meetings to strengthen visibility and foster global engagement.
- Draft official communications, strategic reports, and stakeholder briefings for internal and external use.
- Monitor partnership effectiveness, track KPIs, and recommend improvements to maximize value and alignment with institutional priorities.
- Support policy-making and organizational strategy by leveraging international best practices and insights from global collaborations.

Senior Business Intelligence Analyst | 05/2024 – 09/2025

- Lead IT and performance-driven projects across departments, focusing on data alignment with strategic KPIs.
- Implement frameworks for business intelligence, enabling informed decision-making at the executive level.
- Oversee international platform collaborations, ensuring timely delivery and risk-managed integration of initiatives.
- Managed project timelines and delivery milestones in collaboration with technical and non-technical teams
- Cultivated and sustained strategic partnerships with local and international platforms to align project execution.
- Facilitated risk assessments and solution planning with stakeholders across departments.

- Collaborated with developers to build an internal project platform, enhancing team efficiency and ensuring seamless delivery with external partners.

Delegation Assigned Representative Spokesperson | 09/2021 – Present

- Acted as organizational spokesperson in key international forums, presenting technical insights and strategic updates.
- Managed external stakeholder relationships with foreign partners and government entities.
- Delivered structured reports and business recommendations aligned with global standards.
- Presented to over 90 international delegations and represented the organization in two high-level political forums, both hosted as international conferences.
- Organized and led booth representation at international conferences to showcase digital innovation efforts.
- Participated in high-level forums, contributing insights on digital transformation and policy effectiveness.
- Coordinated logistics and talking points with senior leadership prior to international delegations.

Data Analysis Specialist | 09/2019 – 05/2024

- Spearheaded the creation of KPIs and dashboards to drive strategic decision-making.
- Led internal teams in implementing new data architecture and reporting systems.
- Mentored junior analysts in BI tools, improving team capabilities and data literacy.
- Developed automated Excel-based reporting tools to enhance performance tracking and visibility.
- Regularly provided leadership with analytical briefings to shape ongoing policy and operational decisions.
- Integrated cross-source datasets to support organizational reporting standards.
- Added 4,331 data entries to the internal glossary and reviewed and edited 4,145 of them to ensure data accuracy and alignment.
- Collaborated with the department director and development team to design and implement an internal data platform that now hosts over 19,987 structured entries; ensured quality through four tiered input modules with 12–16 required fields per form.

Data Quality Analyst | 07/2017 – 09/2019

- Ensured quality and integrity of enterprise-wide data assets.
- Conducted root cause analyses for inconsistencies and designed long-term fixes.
- Standardized datasets across platforms to improve cross-functional reporting consistency.
- Contributed to the implementation of the internal data glossary by structuring materials and streamlining the input process for long-term reference.
- Collaborated with IT teams to define data validation protocols and ensure integrity across systems.
- Contributed to standard operating procedures for data entry, quality checks, and reconciliation processes.

Achievements and Alignment

- Successfully led large-scale government advisory and digital transformation projects.
- Designed and executed data integration frameworks in collaboration with foreign platforms.
- Recognized for improving project transparency and engagement through impactful presentations.

Languages

- Fluent in English and Arabic
